

Nulpon Nulkaus - Authentic Reindeer Safari

Reindeer Safari

Reindeer Safari ride starts with meeting reindeer and putting collar on ("länkiminen") them. Length of the ride is about 10 km, and it takes 3-4 hours. During the ride, reindeer are not tied with another reindeer ("Raito") - so You will control reindeer yourself!! This is very exciting, because all our reindeer are so called "Wild Reindeer", so anything can happen!!! In the halfway of the ride, we will have a break at shelter called "kota" to have some coffee from a "Soot Coffee Pot". During the break, you can also learn to use lasso ("Suopunki"). After the ride, we will feed the reindeer, and each participant will get a certificate of their participation.

Short Round

Short round is a miniature safari ride and it is about 1 km long. Like in the real safari ride, participants are responsible for driving themselves. After the ride, we will get familiar with reindeer and feed them. Before You leave us, each participant will get a Reindeer Driver's license.

Experiences

- Reindeer Safari
- Ice Fishing
- Visits At Reindeer Farm
